

INVESTIGATIVE REPORT: Suspicious Activity Report (SAR) – Case 9901

Document ID: AML-SAR-2026-9901-RED

Classification: STRICTLY CONFIDENTIAL (Tier 1) Issue Date: April 29, 2026

Status: ACTIVE INVESTIGATION

1. Subject Information

- Entity Name: Global Trade Ventures Ltd.
- Primary Account Number: XXXX-XXXX-4402
- Account Type: Corporate Current Account (NRO-linked)

2. Incident Description

The automated AML monitoring system flagged the subject account for a "Velocity Violation" involving rapid cross-border inflows from high-risk jurisdictions.

- Transaction Log: Between April 25 and April 27, 2026, the account received three separate incoming wire transfers of \$50,000 USD each (Total: \$150,000 USD).
- Violation Detail: These transactions violate the Tier 2 Velocity Limit defined in the *KYC_AML_PAN_Baseline_2024.pdf*, which restricts unverified offshore inflows to \$100,000 USD within a 72-hour window for NRO-linked corporate entities.

3. Beneficial Ownership Audit

Initial traces suggest that 'Global Trade Ventures' is a shell entity. The ultimate beneficial owner (UBO) is linked to a Politically Exposed Person (PEP) currently under investigation in the South Zone for the Manual Credit Override (MCO-88) scandal.

4. Recommended Enforcement

1. Immediate Freeze: Temporary suspension of all outbound debits from account -4402.
2. Extended Audit: Verification of all related party transactions involving the Regional Manager (NRI Cell).
3. Regulatory Filing: Filing of a formal STR (Suspicious Transaction Report) with the Financial Intelligence Unit (FIU) by Friday.
